

# SAINT MINERALS<sup>®</sup>

Australian Made. Mineral Makeup.

## Training Manual

# SAINT MINERALS® makeup movement

Mineral makeup is not a novel concept, + numerous brands have entered the Mineral makeup scene. However, not all of them live up to their claims. Recognizing the demand for an authentic, ethically-produced, clean beauty collection free from fragrances + parabens, we embarked on the journey to establish SAINT MINERALS®. This is an Australian-born, Australian-owned, + environmentally-conscious makeup range.

SAINT MINERALS® is consciously-made, cruelty-free + clean mineral makeup, derived from the highest quality, vegan-friendly, non nano technology. More than just makeup; SAINT MINERALS® is superior skincare with anti-ageing, hydrating + skin-soothing benefits that people of all skin types can benefit from.

# What we live + breathe.

## **SAINT MINERALS® is a movement**

More than just a makeup brand, SAINT MINERALS® is a movement encouraging people to experience clean beauty without harming their skin, the planet, or their ethics.

## **SAINT MINERALS® embodies clean beauty**

SAINT MINERALS® is cruelty-free, vegan-friendly, ethically sourced, sustainable + authentic.

## **SAINT MINERALS® believes in inclusive beauty**

Suitable for all skin types, ages, identities + lifestyles; SAINT MINERALS® offers a long-lasting formulation to suit everyone.

## **SAINT MINERALS® believes in conscious multi-tasking**

Made from earth's natural minerals, antioxidant-rich plant extracts, + hydrating formulations,

SAINT MINERALS® is skincare with the added benefit of colour

## **SAINT MINERALS® believes in the healing power of makeup**

Our carefully-curated formulations contain natural anti-inflammatories + antioxidants to help soothe blemishes, reduce shine + minimise the effect of pollution + environmental factors.

**Discover our beliefs + join the SAINT MINERALS® movement.**

## Breathable **Skin.**

SAINT MINERALS® is an SPF, 100% cruelty-free mineral, makeup range derived from the highest quality, vegan-friendly, natural ingredients.

Made from earth's finest natural minerals, antioxidant-rich plant extracts + hydrating properties.

SAINT MINERALS® is skincare with the added benefit of colour.

## Zinc Oxide.

Zinc Oxide offers protection from the sun by sitting on top of the skin scattering + absorbing the harmful rays, both UV-A & UV-B. Beneficial in reducing pre-mature aging of the skin & skin cancer due to its broad-spectrum sunscreen.

- Mineral ingredient that's one of the best-known broad spectrum UV filters
- Proven gentle enough for sensitive skin + skin prone to rosacea
- Serves as a skin protector
- Is the broadest spectrum UVA + UVB reflector approved as a sunscreen by the FDA

## Titanium Dioxide.

Titanium dioxide is an in earth mineral used as a sunscreen ingredient in mineral makeup. It protects skin from UVA + UVB radiation + is considered non-risky in terms of skin sensitivity. Because it is gentle, titanium dioxide is a great sunscreen active for sensitive, redness-prone skin. It's great for use around the eyes, as it is highly unlikely to cause stinging or reactions.

## Iron Oxide.

Iron Oxide help to provide protection from Visible light plus it help to retain hydration in the skin + allow mineral makeup with long lasting durability on the skin so no need to re apply makeup as much.

# SAINT MINERALS<sup>®</sup> believes in the healing power of makeup.

---

## **Jojoba Oil + Shea Butter**

Natural anti-inflammatories to heal + hydrate the skin.

---

## **Sea Buckthorn Berry Extract**

Rich in Vitamin A, C + E, renowned for hydration + anti-aging benefits.

---

## **Pomegranate Seed Extract**

Neutralises free-radicals + decreases inflammation + balances sebum production.

---

## **Vitamin E**

Helps to provide anti-inflammatory benefits + protects from UV damage whilst also reducing erythema.

# Clean. Curated. Conscious.

# It's all about the base

Our responsibility is to enlighten individuals about the significance of using a superior mineral makeup base + primer. SAINT MINERALS® presents an extensive selection of formulations + coverage options crafted to cater to a variety of skin types, address diverse skin conditions + suit different lifestyles.

Our formulations incorporate SPF derived from the purest + finest minerals, Zinc Oxide + Titanium dioxide. This provides comprehensive protection against both UVA + UVB rays, without the issue of absorption into the skin, as is common with conventional makeup. Instead, SAINT MINERALS® remains on the surface of the skin, functioning as a protective shield between you + your surroundings. This leaves your skin with a durable, breathable + moisturizing foundation.

## The benefits of SAINT MINERALS® bases:

- All skin types, skin conditions + lifestyles.
- SPF from Zinc Oxide + Titanium dioxide.
- Won't penetrate into the skin like regular makeup rather offering a breathable skin shield.
- Long-lasting, breathable + hydrating base.

## Skin conditions caused by regular makeup

As a skin therapist, it's your responsibility to educate your clients on why SAINT MINERALS® bases are part of the holistic skincare journey to achieve the ultimate results.

### Acne Cosmetica

Characterised by lumps + bumps under the skin, Acne Cosmetica typically appears on the cheeks, chin + forehead + is most commonly caused by makeup that presents as colour stay. This makeup is usually loaded with chemicals + alcohol that don't allow the skin to breathe, which is quite literally, a recipe for disaster.

### Rosacea, Pigmentation + Inflammation

Regular makeup contains alcohol, fragrances, glycols + more nasty stuff, which can cause skin issues like rosacea, skin pigmentation + inflammation. These conditions need as much UV protection as possible, as well as anti-inflammatory ingredients which won't trigger more pigmentation.

**Prime.**

## Mineral Primer.

A clear silky + velvety gel that acts as a primer, preparing the skin, refining texture, reducing the appearance of fine lines + wrinkles, + camouflaging pores prior to applying any SAINT MINERALS® foundation. It can also be used independently to achieve a more radiant + clarified complexion.

- Suitable for all skin types, particularly oily skin to help eliminate oil/shine
- Smooths texture, minimises fine lines + wrinkles + blurs pores
- Clear, silky gel consistency which is light on the skin with long-lasting wear
- Raspberry seed extract to soothe symptoms of inflammation
- Designed to create the perfect canvas for flawless SAINT MINERALS® base application

Key Ingredient	Benefit
Sea Buckthorn Extract	Rich in Vitamin A, C + E, renowned for anti-aging benefits. Hydrates + promotes collagen formation.
Pomegranate Seed Extract	Offers anti-inflammatory, antimicrobial, healing + nourishing qualities to help repair skin.
Raspberry Seed Extract	Soothes symptoms of inflammatory skin conditions like eczema, rosacea, + psoriasis.
Kiwi Seed Extract	Is rich in Omega 3 fatty acids, helps improve elasticity, maintain moisture + prevent dryness.
Vitamin E	A powerful antioxidant that reduces UV damage + nourishes + protects the skin from free-radicals.
<b>Ingredients</b> Cyclopentasiloxane (and) Dimethicone Crosspolymer, Cyclopentasiloxane, Dimethicone, Tocopherol Acetate, Sea Buckthorn Extract, Pomegranate Seed Extract, Raspberry Seed Extract, Kiwi Fruit Seed Extract + Cucumber Fragrance.	

### Application

Apply after moisturiser or SPF using fingertips.

### Pro Tips

The SAINT MINERALS® Foundation Brush can also be utilised to achieve a blurring effect, essential for minimizing open pores + achieving a balanced, even complexion.

## Best Brush Partner

### Kabuki Brush.

Our signature Kabuki Brush is essential for a flawless, loose powder application. It has a conveniently-sized stem with a large, dome-shaped, perfectly-proportioned synthetic head which allows you to softly swirl + warm up the loose minerals + gently buff the skin.

Gain maximum control as you buff + build in circular movements, creating the desired level of air-brush quality coverage.

**Kabuki Brush = Medium to Full coverage**  
**Long Handle Kabuki Brush = Light to Medium Coverage**

### Buffer Brush.

This deluxe brush is made from triple-milled synthetic vegan fibres + is an absolute favourite. A hero brush for all make up artists.

## Application

Tap a small amount of powder into the lid + swirl your SAINT MINERALS® Kabuki Brush into the powder to warm up the minerals. The more you warm up the minerals, the more flawless the application will be. Work powder into the brush, tap off any excess + lightly dust over the face for a flawless, luminous base.

## Pro Tips

SAINT MINERALS® is highly concentrated, so repeat this process for fuller coverage. Can also be used as a spot-treatment concealer when applied with a concealer brush.

### Best Brush Partner

#### Buffer Brush.

Perfect for SAINT MINERALS® Liquid + BB. This deluxe brush is made from triple-milled synthetic vegan fibres + is an absolute favourite to apply our Liquid + BB Cream. A hero brush for all make up artists.

#### Liquid Foundation Brush.

Our Liquid Foundation Brush is made from the softest of synthetic hairs with a sleek, tapered edge which allows you to expertly build, blend + control your application.

Simply place a small amount of SAINT MINERALS® BB Cream on the back of your hand, sweep the brush across the foundation + apply in downward strokes. You can also stipple the brush over the areas you want to build further coverage. A perfectly, flawless result, every time!

### Application

Apply using your fingertips for a quick + easy application or your choice of SAINT MINERALS® Brush.

### Pro Tips

Used alone, this product will achieve light-medium coverage – for full coverage, mix with SAINT MINERALS® Loose Foundation or the Pressed powder to create a luminous, full-coverage complexion while still allowing the skin to breathe.

# How to efficiently + swiftly achieve the perfect colour match.

Step 1 Choose three shades you believe will suit the clients skin.

Step 2 Apply all three shades to the clients jawline without blending them in.

Step 3 The shades which matches the most to the clients skin should be chosen. Also show the client + get their feedback as some clients like to go slightly darker or lighter.

Step 4 Apply the desired shade to the clients skin all over.

## Identify Undertones.

The undertone of skin is the colour that lies just beneath the surface + it affects the overall hue. Undertones are classified as neutral, warm, or cool.

### Cool Undertones

- Those with a cool skin tone may come across as red, pink or bluish.
- Veins at the wrist appear blue in natural light.
- Tend to burn in the sun, but not tan.
- Look best in silver jewellery.

### Warm Undertones

- Those with a warm skin tone could be described as yellow, peachy + golden.
- Veins at your wrist appear green in natural light.
- Look best in gold jewellery.

### Neutral Undertones

- Those with a neutral skin tone can think of olive tones or a mix of those above. Neutral undertones are a balance of warm + cool tones.
- Sometimes burn + sometimes tan.
- Tend to suit both gold + silver jewellery.

NEUTRAL

COOL

OLIVE

WARM

# Foundation Is A Wardrobe.

Much like your wardrobe, your skin + foundation requirements evolve with the changing seasons. Skin tone + texture naturally shift as the seasons transition, so it's essential to recalibrate your colour-matching to align with the current season.

Take advantage of your treatment appointments as a chance to reintroduce + emphasize our in-house colour-matching services. Clients' needs fluctuate alongside the seasons.

For instance, consider transitioning to the lighter BB Cream during the warmer months, incorporating a Primer for added hydration in the winter, or introducing the Loose Mineral Powder for a deeper colour + a matte finish during colder seasons.

## Mix + Match

### Pressed Mineral Foundations

- Alone = Light Coverage
- Pressed applied on top of Liquid or Loose = Medium to Full Coverage

### BB Cream

- Alone = Light Coverage
- Liquid or Loose applied on top of BB Cream = Medium to Full Coverage

**Enhance.**

## Loose Blush — Rose Glow.

Our SAINT MINERALS® Blush has a soft pink, rose glow for a fresh + luminous cheek look + feel.

- Complimentary hue for fair, medium, olive + dark skin
- Suitable for all skin types

Key Ingredient	Benefit
Mica	Finely milled, natural earth mineral which gives flawless, luminosity / helps deflect light from fine-lines + wrinkles. Also provides the depth of pigment in the mineral make-up.
Kaolin Clay	Mild astringent properties that will help to absorb excess oil.
Zinc Oxide	Earth mineral + helps protect against free-radicals. Creates a natural, protective barrier against the elements.
Silica	Anti-inflammatory property ensures ample oxygenation without provoking irritation.
Magnesium Stearate	Anti-caking agent used in mineral powders.
<b>Ingredients</b> Mica (CI 77019), Kaolin Clay, Zinc Oxide, Silica + Magnesium Stearate. May Contain +/- Red Iron Oxide (CI 77491), Yellow Iron Oxide (CI 77492), Ultramarines (CI 77007) + Tin Oxide	

### Application

Tap a small amount into the lid + swirl your SAINT MINERALS® Contour Brush into the powder to warm up the minerals. Work minerals into the brush, dust off any excess + apply to your cheekbones.

### Pro Tips

Turn into a liquid or cream blush by adding our SAINT MINERALS® Natural Oil Primer.

## Pressed Matte Bronzer— Sun-Kissed

A luscious, long-lasting bronzing powder that delivers a sun-kissed, velvet matte finish. It's lightweight + blends seamlessly into the skin.

- Can be used all over the body or as a blusher for sun-kissed cheeks
- May contain traces of nuts

Key Ingredient	Benefit
Zinc Oxide	Earth mineral + helps skin against free-radicals + UVA protection. Creating a natural barrier against the elements.
Zinc Stearate	Fatty acid that helps to bind the ingredients together.
Rice Powder	Oil-absorbing properties, smooths, reduces shine + creates a longer-lasting finish.
Joboa Esters	Works as a natural skin emollient, creating the same function as the skins natural oils.
Vitamin E	Powerful antioxidant helps fight free-radicals, helps with firming the skin + promotes cell renewal. Helps reduce trans-epidermal water loss.
Mica	Gives a flawless glow when applied to the skin. Luminous, light-reflecting properties minimise appearance of fine lines + wrinkles.
<b>Ingredients</b> Mica (CI 77019), Titanium Dioxide, Zinc Stearate, Rice Powder, Boron Nitride, Yellow Iron Oxide (CI 77492), Red Iron Oxide (CI 77491), Zinc Oxide, Ethyl Macadamiate, Octyldodecyl Stearoyl Stearate, Jojoba Esters, Tocopherol (Natural Vitamin E), Black Iron Oxide (CI 77499), Lauroyl Lysine, Phenoxyethanol (and) Caprylyl Glycol (and) Sorbic Acid *May contain traces of nut*	

### Application

To create a sun-kissed matte look, apply onto face using our SAINT MINERALS® Contour Brush in a number 3 motion starting from your forehead, coming in under your cheekbone + finishing on your jawline creating depth, dimension + shape.

### Pro Tips

Can be used as an eyeshadow.

## Pressed Highlighter — Golden Glow

Delivering a lust-worthy glow without glitter, this second-skin powder buffs + blends effortlessly for the ultimate, naturally luminous complexion.

- The ultra-finely-milled powder is soft, building luminosity with ease while ensuring a natural + refined finish
- May contain traces of nuts

Key Ingredient	Benefit
Zinc Oxide	Earth mineral + helps skin against free-radicals + UVA protection. Creating a natural barrier against the elements.
Zinc Stearate	Fatty acid that helps to bind the ingredients together.
Rice Powder	Oil-absorbing properties, smooths, reduces shine + creates a longer-lasting finish.
Joboba Esters	Works as a natural skin emollient, creating the same function as the skins natural oils.
Vitamin E	Powerful antioxidant helps fight free-radicals, helps with firming the skin + promotes cell renewal. Helps reduce trans-epidermal water loss.
Mica	Gives a flawless glow when applied to the skin. Luminous, light-reflecting properties minimise appearance of fine lines + wrinkles.
<b>Ingredients</b> Mica (CI 77019), Boron Nitride, Zinc Stearate, Ethyl Macadamiate, Octyldodecyl Stearoyl Stearate, Jojoba Esters, Lauroyl Lysine, Rice Powder, Tocopherol (Natural Vitamin E), Zinc Oxide, Phenoxyethanol (and) Caprylyl Glycol (and) Sorbic Acid. May contain +/- Red Iron Oxide (CI 77491), Yellow Iron Oxide (CI 77492), Black Iron Oxide (CI 77499) & Tin Oxide *May contain traces of nut*	

### Application

Apply lightly with our SAINT MINERALS® Highlighter Brush to the inner corners of the eyes, cupid's bow + cheekbones to reflect light giving a beautiful sun-kissed look.

### Pro Tips

Can be used under the your eyebrow arch to help define your eyes

# All Over Bronzer.

Sitting in the sun all day is a no-no, so an all-over glow with a bronzer is a go-go. Our highly pigmented All Over Bronzer creates added warmth to the skin. Use on eyes, lips, cheeks + body.

- A universal, highly pigmented, long-lasting, loose bronzing powder designed to create a radiant, healthy glow, all year round.
- One universal shade suits all skin types + tones.

Key Ingredient	Benefit Benefit
Mica	Finely milled, natural earth mineral which gives flawless, luminosity / helps deflect light from fine-lines + wrinkles. Also provides the depth of pigment in the mineral make-up.
Rice Powder	Oil-absorbing properties, smooths, reduces shine + creates a longer-lasting finish.
Titanium Dioxide	Earth mineral + protects skin from UVB. Also helps reduce redness.
Zinc Oxide	Earth mineral + helps protect against free-radicals. Creates a natural, protective barrier against the elements.
Iron Oxide	Earth mineral which is resistant to moisture + creates “staying power”.
Magnesium Stearate	Anti-caking agent used in mineral powders
<b>Ingredients</b> Mica, Rice Powder, Titanium Dioxide, Magnesium Stearate, Zinc Oxide + Iron Oxide CI 77491.	

## Application

Tap a little amount into the lid + apply to the chosen area with the SAINT MINERALS® Contour Brush. Buff + blend into the skin to move the colour + depth to the area of choice. As with all SAINT MINERALS® loose powders, a little goes a long way, so add gradually until you get the required depth of colour you prefer.

## Pro Tips

There are endless application possibilities – use alone for a radiant glow, blend on eyelids for a subtle, copper hue, or use with our All Over Mineral Highlighter for a defined, contoured photo finish. Mix with your favourite body moisturiser or our Natural Oil Primer to create a silky, smooth liquid bronzer suitable for the face + body.

## All Over Highlighter.

A genuine multitasking marvel, our All Over Highlighter bestows an extra dose of luminance + radiance to your complexion. It features a universally flattering shade that complements all skin types + tones.

- Use on cheeks, temples, nose + eyes – the iridescent, super-fine mineral particles create a lightweight, flawless sheen.
- One universal shade suits all skin types + tones.

Key Ingredient	Benefit
Mica	Finely milled, natural earth mineral which gives flawless, luminosity / helps deflect light from fine-lines + wrinkles.
Titanium Dioxide	Earth mineral + protects skin from UVB. Also helps reduce redness.
Iron Oxide	Earth mineral which is resistant to moisture + creates “staying power”.
<b>Ingredients</b> Mica, Titanium Dioxide + Iron Oxide CI 77491.	

### Application

The opportunities are endless with this little pot of magic! Using our SAINT MINERALS® Highlighter Brush, swirl + buff over the top of any SAINT MINERALS® base to create an effortless, soft, luminous, natural look, from day to night.

### Pro Tips

Mix a few drops of our Natural Oil Primer to create a liquid highlighter for cheeks, brows + temples. Dot in the inner corner of the eye to help lift + brighten tired eyes, create a doe-eyed look, or contrast with a smoky eye. Pop a bit above your cupid's bow to create a subtle, strobe effect.

**ALMOND EYES**

Recognized for their balanced proportions, almond eyes allow for versatile makeup styles, permitting experimentation with color placements across the lid, socket, and brow bone.

**PROMINENT EYES**

Pronounced lids with a deep socket benefit from applying light tones to the lid and dark shades in the crease to enhance the natural shape.

Use a thick liner along the lash line and apply the darkest shade to the middle of your eye.

**DOWNTURNED EYES**

With a droopy appearance at the outer corners, uplift the eyes by applying liner or color that is drawn upward from the outer corner. A triangle sponge can be used to sweep color upward for an instant lift.

Lift the corners of your eyes with a bold cat eye. Blend up and out!

**UPTURNED EYES**

The opposite of downturned eyes, avoid liner that sweeps upward. Blend the outer corner and use dark eyeshadow on the lower outer corner to balance the shape.

Emphasize your natural lift by dividing the lid into two sections.

**CLOSE SET EYES**

For eyes closer than one eye width apart, add light colors to the inner eye and darker shades to the outer eye to create the appearance of a well-proportioned eye shape.

Concentrate light colors on the inside & dark on the outside, extending a little.

**WIDE SET EYES**

If the distance between your eyes is greater than one eye width, you have wide-set eyes. To achieve balance, apply a medium tone to the inner corner and extend across the lid, creating the illusion of eyes appearing closer together. Avoid lighter colors in the inner corner, as this may accentuate the width.

The goal is to "pull" eyes closer, minimizing the gap. The trick is blending everything inward.

**MONOLIP EYES**

Monolids typically have a flatter shape, making it more flattering to apply eyeshadow vertically. Optimal application involves stacking shades on top of each other, as opposed to applying them horizontally across the lids.

Start with a black liner and go from darkest to lightest upwards for an ombré effect.

**HOODED EYES**

Characterized by the skin of the crease covering most of the lid, hooded eyes benefit from applying a darker neutral color on the lid, smudging upward, and adding highlights to the frontal bone and inner corner for an opened-eye effect. Mascara and well-groomed brows enhance the overall balance.

Avoid applying dark shadows all over the eyelid. Use highlights to make your eyes appear wide open.

### Deep Set Eyes

While deep-set eyes have a balanced lid + a deep socket, apply medium tones from the lid into the crease, avoiding dark colours in the crease to prevent emphasizing depth.

### Round Eyes

Similar to almond eyes but with a more pronounced eyeball, round eyes allow for various styles on the top lid. Avoid using bottom eyeliner, as it may emphasize the roundness.

### Big Eyes

Medium tones work best for big eyes, applied around the entire eye, following the lash line both above + below. Add a touch of dark shadow to the outer corners for a smoky effect.

### Small Eyes

To avoid closing the eyes further, use light to medium colors around the entire eye + line only the top lid.

**Brushes.**

## Kabuki Brush.

Our signature Kabuki Brush is essential for a flawless, loose powder application. It has a conveniently-sized stem with a large, dome-shaped, perfectly-proportioned synthetic head which allows you to softly swirl + warm up the loose minerals + gently buff the skin.

Gain maximum control as you buff + build in circular movements, creating the desired level of air-brush quality coverage. Its soft, wide head is ideal for dusting a year-round summer glow across temples, cheeks, neck + décolletage.

- Available in either a short + long handle

### Notes

---

---

## Liquid Foundation Brush.

Our Liquid Foundation Brush is made from the softest of synthetic hairs with a sleek, tapered edge which allows you to expertly build, blend + control your application.

Simply place a small amount of SAINT MINERALS® Liquid Foundation on the back of your hand, sweep the brush across the foundation + apply in downward strokes. You can also stipple the brush over the areas you want to build further coverage. A perfectly flawless result, every time!

### Notes

---

---

## Dual Ended Brow Brush.

Dual-Ended brush with a stiff, angled end for blending Brow Butter into hair + the spoolie helps groom + tame brows into place. Also great for softening Eye Liner to create a sultry, smoky look.

Precision, control + polished results, every time.

### Notes

---

---

## Detail Highlighter Brush.

Hit all the highlights with this brush for diffusing + seamless blending. This soft-pointed brush ensures precise application of our Loose + Pressed Highlighters.

Precision, control + polished results, every time.

### Notes

# Refillable Eyeshadow Palette.

Craft your personalised eyeshadow palette with your preferred shades.

This adaptable case provides a secure + magnetic base for our Pressed Eyeshadows.

### Notes

---

---

---

## Brush Cleanser.

This all-natural, alcohol-free Brush Cleanser is perfect for keeping all your SAINT MINERALS® brushes in pristine condition. Quickly removes makeup in between uses.

**Ingredients:** Rosa Damascena (Rose) Flower Distillate\*, Water, Hamamelis Virginiana (Witch Hazel) Flower Water\*, Cocoamidopropyl Betaine, Caprylhydroxamic Acid (and) Caprylyl Glycol (and) Glycerine

### Brush Tips + Cleaning

We suggest softy “brushing” the bristles of the brushes with fingers a few times before first use to remove loose/excess hair. To clean, use a mild brush cleanser or shampoo. It's advisable to avoid using alcohol for cleaning so to protect the glue / bristles
